UNIQUENESS OF LOYOLA-ICAM

Loyola-ICAM College of Engineering and Technology (LICET) is evolving as a center of global learning. Here students are formed as leaders with social responsibility. LICET is inspiring creative in its curriculum and its empowering the students for the world of tomorrow. The staff and students exchange programmes with universities abroad gives LICET members a global exposure needed for national and international leadership with social responsibility.

ABOUT DoIT

The primary objective of the Department of Information Technology at LICET is to prepare our students to be leaders in the theory and practice of computer applications. To promote use of new technology within the organization through the development of innovative applications. Graduates apply their expertise to contemporary problem solving, be engaged professionally and have continued to learn and adapt, and have contributed to their organizations through leadership and teamwork. With rapidly evolving technology and the continuous need for innovation the department has always produced quality professionals.
